### Related Experience

**Integration & Launching Specialist.** GrowthZone, Nisswa. June 2017 – Present

Integrate GrowthZone/ChamberMaster module pages seemingly into the client's website. Along with making client websites responsive. Launch websites with extensive work in DNS hosts. Assist with REALTOR clients with SSO setup/authorizations. Still assist in Web Support when needed giving our clients the best support possible.

**Web Support Specialist.** GrowthZone, Nisswa. July 2016 – June 2017

Provide quality, efficient, and personalized web support daily. The primary function is assisting customers with web support/troubleshooting, CMS instruction, DNS management, and most importantly creating and maintaining the excellent relationships that are the foundation of our success.

### Web Projects

**GrowthZone CMS.** Assisted in creating a new CMS for our clients. Very similar to WordPress but specific to our GrowthZone clients. Used Beaver Builder.

**SSL for Clients.** Suggest and instruct clients to secure their websites. Presenting information to better secure and boost their SEO. Have worked with Cloudflare, Let's Encrypt, GoDaddy, Network Solutions.

### Web Experience

HTML, CSS, and JavaScript daily to resolve any issues or requests for our clients. Daily DNS troubleshooting including changing IPs, SPF, and email management. Have created or involved in many websites both personally and on the job. API and SSO authorizations (SAML, OAuth)

**Excellent References available upon Request.**
